Subject: Yesterday's Voice Mail

Hi, Angela. I just heard the Voice Mail message you sent yesterday. I don't have much of a voice today, so I'm replying by e-mail. You said you wanted a contact person at HQ to discuss removal triggers. The best person to talk to is Janine Dinan. She is a tox in the Removal Program at HQ, and was involved with Dimock. Hope this helps. If you need anything else, please let me know. Thanks.

Dawn
